ARE YOU GETTING ENOUGH OUT OF YOUR SCHOOL LIBRARY?

Ask yourself these questions:

- When was the last time I went to the school library?
- When was the last time I talked to the Librarian about my curriculum?
- Do I know what the Librarian can do for me and my students?
- When was the last time I looked at the library resources for my subject or encouraged my students to do the same?
- Do I know what online library resources are available for my subject?
